IMS Announces Availability of 75ohm Impedance 6dB Power Splitters

Portsmouth, Rhode Island, USA – International Manufacturing Services, Inc. (IMS), a leading manufacturer of thick film resistors, attenuators, terminations, planar dividers and planar filters is pleased to announce their 1W two-way resistive power splitters are now available with 50 ohm or 75 ohm impedances. The 75 ohm IPS Series two-way splitters feature wraparound or single sided terminals and are especially suited for broadcast applications. These resistive power splitters have 6dB evenly split attenuation and operate from DC to 20GHz. The devices have an attenuation accuracy is $\pm 0.5\text{dB}$ and a VSWR of 1.3:1. Samples of the 50ohm and 75ohm two-way resistive power splitters can be obtained by visiting www.ims-resistors.com or by contacting the factory.

Since 1974, IMS has been supplying the electronics manufacturing industries with highest quality thick and thin film chip resistors, terminations, attenuators and RF components. For more information, visit www.ims-resistors.com, or contact the company at 50 Schoolhouse Lane, Portsmouth, RI, 02871 USA, Tel. 401-683-9700. Fax 401-683-5571, e-mail: sales@ims-resistors.com.
