IMS' Therma-Bridge™, Thermal Management Device, wins Product of the Year Award from www.EN-Genius.net

Portsmouth, Rhode Island, USA – International Manufacturing Services, Inc. (IMS) is pleased to announce their Therma-Bridge™ has won EN-Genius Network's product of the year for the category of "Most Cost-Effective Cooling Technology". The Therma-Bridge™ is a simple and cost effective thermal management device which uses thermally conductive Aluminum Nitride with metalized terminals to transport heat from one location to another, thus enhancing overall board performance. IMS offers the Therma-Bridge™ in numerous sizes and thickness, allowing users to choose the part which best fits their thermal management needs. Information and specifications regarding the thermal conductivity of each Therma-Bridge™ size/ thickness combination and ordering information can be found on the IMS web site, <http://www.ims-resistors.com/>. Samples are available by contacting the factory.

Since 1974, IMS has been supplying the electronics manufacturing industries with highest quality thick and thin film chip resistors, terminations, filters and attenuators. For more information, visit www.ims-resistors.com, or contact the company at 50 Schoolhouse Lane, Portsmouth, RI, 02871 USA, Tel. 401-683-9700. Fax 401-683-5571, e-mail: sales@ims-resistors.com.
