IMS Releases Compact Low-Loss Broadband Resistive Coupler to 15GHz

Portsmouth, Rhode Island, USA – International Manufacturing Services, Inc. (IMS), a leading manufacturer and supplier of high quality thick film resistors, terminations, attenuators, splitters, planar dividers, planar filters and thermal management devices to the electronics industry, announces the availability of its IMK Series resistive couplers. The compact and easy to use IMK Series resistive couplers function well over a DC to 15GHz range. Insertion loss is comparable to the more complicated frequency sensitive couplers. This 0.120”

x 0.120” device is available with a coupling range from 6 to 30dB and is rated at 1W. Samples of the IMK Series resistive coupler are available by visiting www.ims-resistors.com or by contacting the factory.

Since 1974, IMS has been supplying the electronics manufacturing industries with highest quality thick and thin film chip resistors, terminations, attenuators and RF and Microwave components. For more information, visit www.ims-resistors.com, or contact the company at 50 Schoolhouse Lane, Portsmouth, RI, 02871 USA, Tel. 401-683-9700. Fax 401-683-5571, e-mail: sales@ims-resistors.com.
